

Dear Hiring Manager,

I am writing to express my interest in the web developer / front-end developer / Software Engineer / Full Stack Developer position at your organization. With over three years of hands-on experience in full-stack development, application management, and security-focused engineering, I bring a balanced mix of technical expertise and business understanding, supported by my MBA in Project Management & IT.

In my current role at Aditya Birla Capital Digital Limited, I serve as both a Software Developer and Application Manager for the Payments platform. I take ownership of release coordination, incident management, and stakeholder communication while actively contributing to frontend development using React, Redux, and TypeScript. I have also developed internal tools that streamlined business operations and led vulnerability remediation efforts across multiple applications, significantly improving overall security and compliance.

Previously, I worked on the Service Buddy application, where I contributed to feature development, bug fixing, and end-to-end testing. This experience strengthened my ability to work in agile environments and deliver reliable, user-focused solutions within tight timelines.

My technical skill set includes Java, JavaScript, TypeScript, ReactJS, MySQL, REST APIs, and cloud concepts, along with experience in tools like Docker, Git, and Jira. I also bring a strong focus on code quality, security, and performance optimization, having worked closely with QA and security teams on VAPT and CVE remediation initiatives.

What sets me apart is my ability to bridge technical execution with business goals. I am particularly interested in building scalable, secure systems while collaborating across teams to deliver high-impact solutions.

I would welcome the opportunity to contribute my skills and experience to your team. Thank you for considering my application. I look forward to the possibility of discussing how I can add value to your organization.

Sincerely,

Aditya Bhattacharya
